**Green waste not accepted at any refuse transfer station, except Līhu'e
Other recycling programs suspended at Hanapēpē**

LĪHU'E – Due to the weather, green waste is currently not being accepted at any of the refuse transfer stations except for Līhu'e.

In addition, all recycling programs on the lower level of the Hanapēpē transfer station have been suspended including tires, scrap metal and appliances. The recycling programs located on the upper level are still being accepted - motor oil and filters and propane tanks.

When conditions improve, all of the programs will be reopened.

For updates, please call Nick Lum at 212-4683.
